

**TITLE: HORIZON BRACELET, WITH KIEU PHAM GRAY****Description:**

Learn the concepts of silver soldering while creating a fun and stylish bracelet that combines both copper and silver. You will have the opportunity to personalize your piece by using the rolling mill to apply a texture of your choice—adding depth and interest to your design. Perfect for beginners looking to expand their jewelry making skills, this class will leave you with a beautiful handcrafted bracelet and a solid foundation in silver soldering techniques.

Students are asked to bring the following:

- Chain nose pliers x2

- Flush cutters

- Half-round/flat pliers (optional)
